PRODUCER ACCUMULATOR w/ GUARANTEED QTY & EURO DU Indications

This contract prices bushels weekly on a pre-scheduled pricing day. As long as the market never touches the pre-determined knockout price at anytime during the week, night or day trade, the bushels will price at the Accumulation Price. If the pre-determined knockout price is touched at any time the pricing will end with the Final Price being a weighed average of the Accumulation Price from previous weeks and the remainder will be priced at the pre-determined Guaranteed Price. If on the Final Pricing Date the futures value is at or above the Accumulation Price then Double Bushels are committed at the Accumulation Price. Once the final price values have been established a Hedge to Arrive contract is issued that reflects the final futures value. Producers have the option to roll the Hedge to Arrive contract forward to a later futures month within the same crop year when the producer has farm storage or grain storage certificates from New Vision Co-op. **Basis must be set prior to delivery on the contracted bushels.**

LADDERED PRODUCER ACCUMULATOR No KO 100% Indications

This contract prices bushels weekly on a pre-scheduled pricing day with no knockout price. This contract features a beginning Floor Price (Minimum Price) with a stair step price higher when the Chicago Board of Trade exceeds the Floor Price Value a predetermined Second Price Level is achieved. If the Chicago Board of Trade exceeds the Second Price Level the Bushels are priced at the predetermined Maximum Price. If on the Final Pricing Date the futures value is at or above the Maximum Price Value then Double Bushels are committed at the Maximum Price. Once the final price values have been established a Hedge to Arrive contract is issued that reflects the final futures value. Producers have the option to roll the Hedge to Arrive contract forward to a later futures month within the same crop year when the producer has farm storage or grain storage certificates from New Vision Co-op. **Basis must be set prior to delivery on the contract bushels.**

LADDERED PRODUCER ACCUMULATOR No KO 100% OLD CROP/NEW CROP Indications

This contract prices bushels weekly on a pre-scheduled pricing day with no knockout price against Old Crop futures price. This contract features a beginning Floor Price (Minimum Price) with a stair step price higher when the Chicago Board of Trade exceeds the Floor Price Value a predetermined Second Price Level is achieved. If the Chicago Board of Trade exceeds the Second Price Level the Bushels are priced at the predetermined Maximum Price. When the End Date is reached on Old Crop a Hedge to Arrive Contract is issued or Bushels are applied to a preset Basis Contract for the Price attained during the pricing period for Old Crop. If on the Final Pricing Date and only on the Final Pricing Date of the New Crop futures value is above the preset Double Up price then Equal Bushels are committed at the Maximum Price. Producers have the option to roll the New Crop Hedge to Arrive contract forward to a later futures month within the same crop year when the producer has farm storage or grain storage certificates from New Vision Co-op. **Basis must be set prior to delivery on contract bushels.**

Other Contracts

Additional pricing tools are available that do not double up bushels and can be used in lieu of this contract. Please contact any one of the Grain Solutions Staff for more information.
